1. In the first full bullet, insert: “To the extent necessary and feasible” at the beginning of the bullet.
2. In the “Conclusions” paragraph, insert text as follows: “The remediation activities at Midway Village began before there was a clear national understanding of, and guidelines for identifying, characterizing and cleaning-up former MGP sites. It was also a time when awareness of environmental justice issues was not well established, and public participation was poorly conceptualized as well. In that context, DTSC’s initial remediation of the site should be considered reasonable and based on sound practice, even though it was subsequently brought to a tighter standard. Accepted practice for the remediation and later use of MGP sites has undergone substantial change over the course of activities at Midway, however.”
